### Big Guns Boom Rousing Salutes At Opening Of Confab

Glittering Pageantry of  
Tradition Marks Ceremonies at Ottawa

By W. A. MURRAY  
Canadian Press Staff Writer

OTTAWA, Ont. July 21—Amid the rumbly of guns, the glittering pageantry of inherited tradition, the picturesque ceremonial of age-old observances, the Imperial Economic conference got under way in Ottawa today.

For many months the "Ottawa conference" has been an expression carrying with it the implication of a future event, something to be looked forward to with interest, doubtfully, often hopefully, always with considerable anxiety. The conference is now on—what issues therefrom is in the lap of the gods.

The first act of the delegation heads today was one of homage to Canada's war dead. In the confined space of the national sanctuary—the memorial chamber of the Peace tower in the parliament buildings—they reverently deposited wreaths to a simple but impressive ceremony. After that, they repaired to the house of commons, there to await the arrival of the governor general.

His Majesty's message to the commons.

### Today

That Third Degree.  
Borah To Explain.  
Hard The Solitary.  
Losing Charm.

—By ARTHUR BRISBANE—  
(Copyright, 1932)

It appears the killing of twenty-year-old Hyman Stark by Lone Island policeman, in the course of a "third degree" treatment, included some unusual features. Among them was what a policeman calls "rocking".

It is alleged that a police official, second in command, got one foot on the prisoner's stomach, the other foot on his neck, and rocked from side to side, asking between times, "Now will you confess?"

The man died; his larynx was broken. Doctors testified that he was beaten with a rubber hose to emphasize it. A Brisbane

### 13 POLICEMEN FACE CHARGES IN DEATH CASE

Accused of Having Put  
Prisoner Through Fatal  
Third Degree

NEW YORK, July 21—Thirteen Nassau county policemen were arrested today on charges ranging from second degree murder to neglect of duty because of the death of Hyman Stark, a prisoner. They are accused of having put him through a brutal "third degree" in the course of an investigation of a robbery in Mineola, where he was treated "exactly like any other prisoner," Justice Meinelstein charged in turning them over to the sheriff. Deputy chief Frank Tappan, a wealthy man who has been in police work only since last January, was freed from all charges on \$10,000. The others were released as fast as they could make bail but will be arraigned.

A tentative hearing date was set for July 26.

### ONE MAN ENVOY TO BIG PARLEY IS ON HIS WAY

More Than 120 inmates of  
Nelson Jail Refuse to  
Take Food

NELSON, B.C. July 21—More than 120 Doukhobor women inmates of the jail here on a hunger strike, entered upon the fifth day of their abstention from food this morning. Steadfastly refusing to partake of nourishment they rest quietly in their cells and in the jail building. Two or three young girls, however, have broken their fast, and one woman, the mother of a young child, resumed eating when officials threatened to take the baby from her and have it cared for in the hospital.

The hunger strike which followed the death of two Doukhobor leaders in Vancouver last week, is believed to have been caused by agitators who played upon the sympathies of the women here.

### DOUG WOMEN HOLD FAST TO HUNGER STRIKE

More Than 120 inmates of  
Nelson Jail Refuse to  
Take Food

NELSON, B.C. July 21—More than 120 Doukhobor women inmates of the jail here on a hunger strike, entered upon the fifth day of their abstention from food this morning. Steadfastly refusing to partake of nourishment they rest quietly in their cells and in the jail building. Two or three young girls, however, have broken their fast, and one woman, the mother of a young child, resumed eating when officials threatened to take the baby from her and have it cared for in the hospital.

The hunger strike which followed the death of two Doukhobor leaders in Vancouver last week, is believed to have been caused by agitators who played upon the sympathies of the women here.

### Canada's Proud Day, Declares Premier In Opening Great Parley

OTTAWA, July 21—On behalf of the Canadian people I welcome you, Premier R. B. Bennett, addressing delegates to the Imperial conference here today. "This is a proud day for Canada, for in this capital city are gathered delegates from throughout the British empire, empowered to speak for one-quarter of the earth's population and instructed to co-operate in determining a plan by which this great empire may continue its leadership among the nations."

"This conference in many ways is unique among all other assemblies of history. At no time have we been faced with greater need for unselfish and concerted action. At no time have the prospects of achievement been more certain. We meet in days when the machinery of world commerce is out of gear, international finance has broken down, the old-fashioned industrial life to which we have grown accustomed has undergone a change."

TO NEW ORDER  
We move toward a new economic order of things. Our part in fashioning it depends in large measure upon the outcome of this conference.

"We have a common purpose. We have a supreme desire to achieve it. And there can be no group of countries in the wide world so capable of united action as are the countries which comprise the empire."

"Therefore, we are equipped and ready for the task. We are bound in loyalty and self-interest to go forward, knowing as we must that our success means the beginning of a new and greater prosperity for ourselves, the empire, and the world."

"None of us should come to this conference asking that the others do for us what by every test we should do for ourselves. We must see to it that we are prepared to make some contribution to the whole, knowing that in that way only we expect the whole to make some contribution to us."

TREATY WITH U.S.  
"It is true that Canada in the last two years has done as best she might to increase her power for self-service and for Empire service. Only the other day this government concluded a treaty with our friends and neighbors, the United States of America."

Continued on Page 2, Col. 1.

### Bennett Inspires Hope Of Success

By GEORGE HAMILTON  
Canadian Press Staff Correspondent

OTTAWA, July 21—Canada again led the way. In his inclusive phrase, Premier Bennett submitted to the Imperial Economic Conference Canada's offer of wider preference and what Canadians asked in return. He reiterated that the satisfaction of the interest in principle his offer made at the age and expanded it.

1—Extension of the free list  
2—Retention of the existing preferences in favor of Great Britain  
3—Increased preferences in respect of a selected list of imports to the Imperial Economic Conference

ASK IN EXCHANGE  
In exchange, Canada asked:  
1—Their effective extension to the Empire  
2—Their effective extension to the Empire  
3—Increased preferences in respect of a selected list of imports to the Imperial Economic Conference

DOLORES AGAIN  
IN LAW'S HANDS

LONDON, July 21—Mrs. Elvira Dolores Barry, who was acquitted two weeks ago of a charge of murder, was brought into court again today and found guilty of possessing a revolver without a license.

She pleaded guilty to the charge. It was during the struggle for the revolver that she was shot and killed.

NOTED WRITER DIES  
PARIS, July 21—Georges Bernier, noted writer and member of the Academy, died at his home last night. He was 78 years old.

### DOZEN EGGS MAKE UP TAX SHORTAGE

CINCINNATI, July 21—Martin Reardon, farmer, raised \$44.25 for tax, but it was 20 cents short. He gathered a dozen eggs from his henhouse, brought them to the county auditor's office, and a warm-hearted tax collector bought them for 20 cents. So Reardon paid the tax.

DANDELIONS IN LAWN  
REPLANTED BY GIRL

MILWAUKEE, July 21—Joseph Gillette, 11, replanted dandelions in his lawn. Then he gathered, Mary, 7, carefully replanted them. So do dandelions a favor.

BIRD HALLS CLOCKS

WORCESTER, Mass. July 21—West Boston's electrically impaled wheels of industry came to a stop and electric clocks there last night at noon just because a bird carrying a snake bit on a New London Power Company line that was carrying 60,000 volts.

THURSDAY, JULY 21

CANADA KEEPS ITS WHEAT

Writing under date of June 4th, the Canadian trade commission at Shanghai says that the export of wheat into China during the present year up to that time had exceeded the imports during the whole of any preceding year with the exception of 1921, which set a new record.

The figures given by the commission for the first four months of the present year show that China imported from Australia 253,445 bushels, from the United States 192,317 bushels, from Canada 42,297 bushels, and from the Argentine 8,634 bushels.

Australia is off the gold standard, and is simply underwriting its own market. The Chinese government is buying the wheat and the Australian producer is getting more than the Canadian producer when the price is translated into local currency.

The Chinese government is buying the wheat for the purpose of storing it in the country and trying to sell it when the price is higher than it is now.

But the United States is on the gold standard, and is selling nearly five times as much wheat to China as Canada is selling there. How come? The one explanation so far as the public are aware is that the United States sold wheat to China last year on credit, and thereby established a standing in that market; while Canada demanded cash and is keeping its wheat so far as China is concerned.

AN EDMONTON DANGER POINT

Edmonton will be rather lucky if Fair week passes without a tragedy on Jasper east, where the street crosses the Latta ravine and forms the old penitentiary grounds.

Last summer, street car accidents were frequent on the grounds, to the north of the street allowance. That made conditions better for the street railway. But it made them in some respects worse.

Abolition of provision has been made for pedestrians. There is a sidewalk on neither side of the street, and people on foot must clamber over the tracks to cross the street.

The street car is a danger point. It is a danger point to the street car, and it is a danger point to the pedestrian. It is a danger point to the street car, and it is a danger point to the pedestrian.

The street car is a danger point. It is a danger point to the street car, and it is a danger point to the pedestrian. It is a danger point to the street car, and it is a danger point to the pedestrian.

The street car is a danger point. It is a danger point to the street car, and it is a danger point to the pedestrian. It is a danger point to the street car, and it is a danger point to the pedestrian.

## BRITAIN FACES OPPOSITION IN WHEAT QUOTAS

Solid Wall of Adverse Opinion Voiced by Canadian Agrarians

WINNIPEG, Man., July 21.—A solid wall of adverse opinion today faces any attempt to establish wheat quotas in the Imperial Conference meeting in Ottawa this week. Premier John Bracken said such a move would not be of any material benefit to Western Canadian farmers. Canada's exportable wheat surplus, he added, exceeded the entire Empire's requirements.

Representatives of farm bodies in Saskatchewan and Alberta agreed with this view, but Hon. M. Macpherson, acting premier, would not commit himself one way or the other in announcing the Saskatchewan view.

Representing the largest farm body in Alberta, Henry Wood, chairman of the Alberta Wheat Pool, agreed with Premier Bracken's stand. It would neither increase the world's demand nor reduce the present wheat surplus, and with the Manitoba Premier, secretary of the United Farmers of Canada, Saskatchewan section, also agreed with the Manitoba Premier.

OTTAWA, July 21.—In the past four weeks the volume of world shipments of wheat and wheat flour has decreased sharply, and will cut down the total movement for 1932 by 3 to 4 million bushels, according to the Dominion Bureau of Statistics in a monthly review of the wheat situation issued last night.

From August 1, 1931, to June 1932, world shipments of wheat well over 15,000,000 bushels per week. During the past four weeks the volume of world shipments of wheat has decreased sharply, and will cut down the total movement for 1932 by 3 to 4 million bushels per week.

Factors in the declining world shipments include the total absence of wheat from Russia; a sharp diminution in clearances from the Argentine and Australia; development of domestic crops in European importing countries and the partial

OTTAWA, July 21.—In the past four weeks the volume of world shipments of wheat and wheat flour has decreased sharply, and will cut down the total movement for 1932 by 3 to 4 million bushels per week.

Factors in the declining world shipments include the total absence of wheat from Russia; a sharp diminution in clearances from the Argentine and Australia; development of domestic crops in European importing countries and the partial

## REBUILDING HINDERED BY BANDIT HORDE

Sir John Hope Simpson En Route to England to Prepare Report

VANCOUVER, July 21.—Delivery of \$200,000 worth of wheat to starving people in interior China, reconstruction of a flooded area the size of England, rebuilding of 3,000,000 laborers doing it all with the enthusiastic interference of bandits—that is what Sir John Hope Simpson, C.B.E., the English director of China's gigantic food relief program, calls "a job of work."

Arriving here on the Empress of Japan, he is going back to England to prepare a report and will return to China in November. Bandits stole his grain, not holes in his pockets and shot caps off his cap.

He works his way on the Yangtze and Hwai rivers, and up the former river last year, he found the Chinese engineers built the dykes, even on Chinese Soviet territory.

It is true the Chinese Soviet have held thirty of his engineers, extending for ransom. But Sir John thinks they are holding them to see the new dykes and the strain of the rainy season which has now set in.

"The dykes don't stand! I wouldn't like to be those engineers," he comments.

Union Jack To Flutter At Auto's Radiator Masthead

CHALMERS, Ont., July 21.—Twenty-eight McLaughlin-Buicks, each with a Union Jack fluttering at the radiator mast, with the Canadian flag on arms mounted above the windshield, will lead a parade in the city of Chalmers, Ont., today.

The parade, which will be held in Chalmers, Ont., today, is a part of the celebration of the 10th anniversary of the signing of the Ottawa Convention, which established the Canadian Automobile Manufacturers' Association.

The parade, which will be held in Chalmers, Ont., today, is a part of the celebration of the 10th anniversary of the signing of the Ottawa Convention, which established the Canadian Automobile Manufacturers' Association.

## Class Of 1932 Prefers Trades Or Professions

MINNEAPOLIS, July 21.—The young men or women entering the business today is more apt to enter the professions or trades than manufacturing or farming, according to a recent study.

During the ten years from 1920 to 1930, the professions increased their number of workers by nearly 50%, domestic service gained 44% and the service industries such as advertising, banking, insurance, real estate, retail dealers and restaurants increased 42%. The number of people in the professions and service industries increased only 10%, while farming and mining actually declined.

The great increase in industrial and agricultural output as characterized by this ten-year period was accomplished with only a small increase in working force. Due to greater efficiency and improved equipment. Apparently the service industries and professions have absorbed those who would normally have entered manufacturing or farming.

## BIG 4 POWERS DEADLOCKED IN GENEVA MEET

Heavy Artillery Argument Holds up Question of Adjustment

GENEVA, July 21.—The big four powers of the world disarmament conference, Britain, France, the United States and Italy, met yesterday in another attempt to break the deadlock on the question of abolition of heavy mobile artillery which has prevented the general conclusion of a resolution to adjust.

British and French representatives favored retention of heavy mobile guns, while the United States delegation was holding out for abolition of the heavy mobile land artillery.

The adjournment resolution, which was approved for this last obstacle, was published and will be submitted late this afternoon to the general conference on disarmament.

The first asserts that the conference decides, "guided by the general principles underlying President Hoover's disarmament declaration, (A) that substantial reduction of armaments shall be effected, (B) that a general convention of all nations shall be held, and (C) that the primary objectives shall be to reduce means of attack."

Division two lists the points on which the conference, in concluding its first phase, has agreed in principle. These are: prohibition of air attacks against civilian populations; abolition of all aerial bombardment; subject to certain reservations, which include: regulation of all aircraft with full publicity; limitation of maximum height of aircraft; and prohibition of chemical, biological and incendiary warfare.

It is said that more persons disappear from Paris than any other city in the world. The "missing" list averaged 200 daily last year.

AMUSEMENTS

RIALTO  
Detective stories and mystery plots are their universal appeal for the qualities that make puzzle solving and big game hunting popular. Says T. Walter Fisher, who directed "The Roadhouse Murder," with Eric Linden and Dorothy Jordan featured, showing today at the Rialto theatre.

DREAMLAND  
Eddie Quilan who plays the starring part in the RKO Pathe picture "Sweetheart" now at the Dreamland theatre, is a vaudeville performer of long standing. Despite the fact that he is only twenty-three years of age and has been playing starring roles on the screen for some time.

#### Edmonton Fails to Get Man on Executive of Provincial Command

Selection of officers for the next 12 months, a breeze over representation of Imperial veterans at the Dominion command headquarters at Ottawa, submission of reports on Soldier Settlement, constitution and law and bylaws and the usual pleasant business which mark the passing of an old executive, featured the closing hours of the three-day session of the Provincial command, Canadian Legion, in the Macdonald hotel, Wednesday.

The session proceedings lasted for close on an hour and a half, and was due to an humorous incident—as it later turned out—that at first made it appear as though an attempt was on foot to get a little stuffing of the ballot box, which was a battered old western veteran.

A growing feeling among veterans from the smaller branches that too many of the executive officers were being selected from the three main cities of the province, a matter of course, led to sharp cry and charges being brought against the committee for nearly all important officers. The first test of strength came when the convention cast its vote for president, between Walter Bulmer, Calgary, and J. M. Findlay, Red Deer.

#### 74 BALLOTS CAST

After Russell Spence and Comrade Hudson, scrutineers, had counted the votes and reported to President J. E. Thompson, Lethbridge, that there had been 74 ballots cast for 60 accredited delegates, the

#### City Residence Is Damaged By Fire

Fire broke out in the residence of Harry Courtney, 1200 92 street, at 3:45 p.m., Wednesday. The cause of the fire is not known. Investigation revealed the fire started in the clothes closet where a quantity of clothing left in the closet were a total loss, but the house itself was only damaged slightly by water.

The owner of the house was away at the exhibition when the fire broke out.

# SEVERAL ISSUES RECORD SLIGHT GAINS AT N. Y.

By CLAUDE A. JAGGER  
Associated Press Financial Writer

NEW YORK, July 21.—The stock market here showed today but a record of the results of the trading session.

The list was extremely quiet, and showed more interest to work than otherwise.

Issues advancing about 1/2 to 1 point included Santa Fe, Union Pacific, Northern and Western, Delaware and Hudson, Lone Star, National, Grand Union, McPherson, Rockwell, Union Gas, and Federal Trust.

The list ended off for a time in the morning, but fractional increases in such issues as American Gas, American Telephone and Air Reduction were recovered.

National Nickel, Texas Gulf Sulphur and U. S. Steel common and preferred showed fractional gains.
